PROFILE SUMMARY

My name is **NGUYEN LE PHONG**. I am 24 years old, I was born in **BINH THUAN**, but currently I live and work in Ho Chi Minh City. I am waiting to receive a diploma from Ho Chi Minh City University of Agriculture and Forestry, majoring in **Information Technology**. I am a programmer have good knowledge of the **Java** and **ReactJS**. Here is my personal information:

● **Strengths:**

- ✓ I have 6 months working experience at **Proptech Plus**.
- ✓ I have 8 months working experience at **Splus Software**.
- ✓ I am a person with high responsibility for work.
- ✓ Being easy to get along with, willing to help others when possible.
- ✓ I have the ability to manage good personal time.
- ✓ Easily adapt to team work environment.
- ✓ Ability to analyze problems, solve problems.
- ✓ Endure good pressure, high patience.
- ✓ Ability to read English documents.

● **Weaknesses:**

- ✗ Sometimes talking alone while looking for a solution to solve a task.
- ✗ Foreign language communication (English) is not fluent.

● **Hobby:**

- ★ I am a technology enthusiast, applying technology in practice.
- ★ Enjoy watching movies (movies can bring life skills enhancement lessons), singing on weekends, holidays with friends and relatives.
- ★ Enjoy reading new technology news, new applications to cut wind with friends when you have free time.

EXPERIENCE

🕐 **05-09-2015 - Started college at Nong Lam University**

Here I have accumulated knowledge about languages such as **HTML**, **CSS**, **JAVASCRIPT**, **JAVA**, ... through subject projects (It is listed in the project menu on my website).

🕐 **01-07-2018 - Started working at Proptech Plus company**

I was offered a job at this company, and I was fortunate to be involved in software development for real estate, and I had 6 months working with **REACTJS**.

🕐 **01-03-2019 - Started working at splus software company**

I was fortunate to be introduced by my teacher to an outsourcing company, where I experienced many different projects with different fields of clients, languages and technologies. That helped me accumulate a lot of knowledge. There, I was heavily involved in **ReactJS**, **ReactNative**, and **Spring boot app** (**Java**) projects.
